FOREWORD

This booklet contains the schedules of all courses taught to the predoctoral dental students and dental hygiene students in the College of Dentistry. Also, it contains the College of Dentistry's academic calendar and examination schedules for the current academic year. **Please be advised that the calendar and schedules are subject to change without advance notice.**

Students in the College of Dentistry are expected to attend all scheduled lectures, laboratories and clinic assignments. Attendance taken in the classrooms, laboratories and clinics is related directly to student accountability and professional responsibility. When students miss twenty percent (20%) of scheduled classes, laboratories or clinic assignments for which they have not secured an approved excuse, three percentage (6%) points will be deducted from their final grade in that course.

Requests for excused absences must be submitted to the Office of the Associate Dean for Academic and Student Affairs within twenty-four (24) hours following the absence, unless the student is too ill to do so, and must be accompanied by the necessary supporting documents. Requests for excused absences for missed examinations or quizzes due to illness will be processed by the Office of the Associate Dean for Academic and Student Affairs. All other excuses will be provided by the respective course directors.

An unexcused absence from any scheduled examination will result in a zero (0) grade for that examination

Students, who receive excuses, must make arrangements with the Course Director of the missed examination, within forty-eight (48) hours of returning to school, to take the make-up examination. The make-up examination must be taken within 5 business days of the students return. All make-up examinations not given or rescheduled within the specified time indicated, due to negligence on the part of the student, will result in an **F** grade (numerical grade of Zero) for that examination.

Excused absence from clinic service assignments must be made up at a subsequent date approved by the departmental chairman and the Associate Dean for Clinical Affairs.

During the final examination period, all classes and clinics are suspended. The examination schedules for (D1) first year dental students are published separately.

Grades in the College of Dentistry are reported as: **A** (excellent); **B** (above average); **C** (average); and **F** (failing).

The Executive Committee of the College of Dentistry will review and make recommendations concerning the academic performance of each student at the end of each semester and the Summer Session.

Satisfactory performance is required in all courses for promotions and graduation.

In addition,(D2) second year dental students are required to take and pass Part I of the National Board Dental Examinations before promotion to the (D3) third year dental class. D4 dental students must also take and pass Part II of the National Board Dental Examinations to receive a diploma from the College of Dentistry.

ETHICS AND PROCEDURES FOR EXAMINATIONS
in the
HOWARD UNIVERISTY COLLEGE OF DENTISTRY

EXAMS WILL BE ADMINISTERED EXCLUSIVELY VIA EXAMSOFT AND/OR BLACKBOARD ON PERSONAL COMPUTERS. ALL PERSONAL COMPUTERS SHOULD BE IN GOOD WORKING ORDER AND FREE OF NON ACADEMIC MATERIAL TO FACILITATE THE DOWNLOADING OF EXAMS. STUDENTS WILL NOT BE EXCUSED FROM TAKING A SCHEDULED EXAM DUE TO LACK OF ADEQUATE SPACE ON THE COMPUTER, THE EXISTENCE OF VIRUSES, OR ANY OTHER COMPUTER PROBLEM. STUDENTS SHOULD NOTIFY THE OFFICE OF ACADEMIC AND STUDENT AFFAIRS AT LEAST TWO DAYS (48 HOURS) PRIOR TO EXAM ABOUT EXISTING OR POTENTIAL COMPUTER PROBLEMS SO THAT OTHER ARRANGEMENTS MAY BE MADE.

1. Bags, books, papers, cellular phones, pagers, coats, caps, hats, and other miscellaneous materials are not allowed in testing rooms during examinations. First offenders that are found with any of the aforementioned will be dismissed from the exam and will earn a zero for the exam. Second and subsequent offenders may be suspended and/or dismissed from the College of Dentistry.
2. If a room Proctor notices any student clearly copying answers from another student, the student that was found copying answers should be notified that his/her activities have been observed and that a report is being sent to the Dean. However, the student should be allowed to complete the examination. The Proctor should, in this instance, submit a written report of his/her action to the Dean, “**Irregularity Noted**” affix the date and time. If the Proctor notices that copying is going on and the one being copied from is obviously not a participant, then the student should be moved to keep him/her from being placed in jeopardy of being the “**Innocent By-Stander**”.
3. If any student and/or proctor is of the opinion that facilities for any examination are too crowded and/or poorly arranged for a student to protect his/her answers, such student and/or proctor should immediately register a complaint with the individual who is in charge. In the event that prompt, corrective action is not or cannot be taken, then the student and/or proctor should register the appropriate complaint in writing to the Dean immediately following completion of the examination.
4. Each student is responsible for protecting the integrity of his/her answers. If cheating is noted during the examination, or if cheating is disclosed by the computer during processing, candidates involved, whether they be copiers or those copied from, are subject to penalty. The matter will be referred to the Judiciary Board of the College followed by appropriate recommendations to the Dean for punitive action (suspension and/or expulsion is the usual penalty for cheating). This warning notice will **NOT** be repeated, but will be in effect and applicable to all examinations in the College of Dentistry

5. If the form of cheating is not copying from another individual, but involves the use of notes, papers, books, or other miscellaneous materials or procedures, then the procedure for verification, as stated above, should be followed. The item should be taken from the student and the student should be allowed to complete the examination. A written report of the incident, as well as, the “**evidence**” taken from the student must be sent to the Dean.
6. Talking or any other form of verbal or non-verbal communication will **NOT** be allowed during examinations. If any student is observed talking, signaling with fingers or other objects, he/she should be told to stop and written verification noted (as indicated above). This observance must be followed by a written notice to the Dean. **If the student is observed talking, signaling, etc., a second time, the student should be dismissed from the examination and should report, immediately, to the Dean or his designee.** An oral report must be submitted immediately to the Dean, followed by a written report from the Proctor.
7. Proctors and students share responsibility for the integrity of the exams. The student will retake any examination for which any irregularity is found.
8. Students will remain seated after concluding their examinations and simply raise their hands for the Proctor’s approval to be dismissed, i.e., verification of exam upload. They will then leave the examination room and are not permitted to loiter outside the examination room nor in any adjacent hallways.
9. During examinations, which are two or more hours, students will be allowed to take one bathroom break to use the restroom facilities after obtaining permission from the proctor(s).
10. Students will adhere to seating charts during any examination.
