HOWARD UNIVERSITY COLLEGE OF PHARMACY

Nontraditional Doctor of Pharmacy Degree Program

EXECUTIVE WEEKEND I

(August 23 & 24, 2014)

TECHNOLOGY ORIENTATION, INTRODUCTION TO PHARMACY PRACTICE, RESEARCH PRINCIPLES, LITERATURE EVALUATION, BIOSTATISTICS AND BIOTECHNOLOGY.

OVERVIEW

This weekend will provide student pharmacists with a working understanding of how to better utilize computers and the World Wide Web. Saturday sessions will be conducted in the College of Pharmacy's computer laboratory (room 203). Sunday sessions will be held in classroom 207. Faculty and staff will be available to assist participants with exercises and individual questions.

OBJECTIVES

- 1. Provide an overview of basic computer skills and applications that will be utilized throughout the Non-traditional program.
- 2. Define and examine the different components that collectively make up the Internet and Browsers.
- 3. Identify various Internet search engines and utilize them to locate and evaluate information.
- 4. Demonstrate how the information obtained on the Internet can be applied to the practice of pharmacy.
- 5. Discuss the different aspects of medical Literature evaluation and evaluation, answering requests for information, research principles, and introduction to pharmacy practice.
- 6. Provide an overview of Web-Board and the Non-traditional Doctor of Pharmacy web site.
- 7. Provide a discussion of the basic principles and application of pharmacokinetics
