- Give you this notice of our legal duties and privacy practices regarding health information about you; and
- Follow the terms of our notice that are currently in effect.

HOW WE MAY USE AND DISCLOSE HEALTH INFORMATION

Some kinds of health information also are subject to separate special privacy protections under the laws of the District of Columbia, so that portions of this notice may not apply. If you receive alcohol or substance abuse services or treatment from our substance abuse treatment program, you will receive a separate notice describing how we may use and disclose and protect the privacy of health information regarding your alcohol or substance abuse treatment. If you receive mental health services or treatment, you should contact the Privacy Officer at the address at the end of this Notice to obtain further information on the special protections afforded to this information. In addition, special rules apply to medical records and information relating to acquired immune deficiency syndrome ("AIDS"). The section below entitled "How We May Use and Disclose HIV/AIDS Information" describes how we may use and disclose this type of Health Information.

The following categories of activities describe the ways that we may use and disclose health information that identifies you ("Health Information"). Some of the categories include examples, but not every type of use or disclosure included in a category is listed. Except for the categories of activities described below, we will use and disclose Health Information only with written

permission from you. If you give us permission to use or disclose Health Information for a purpose not listed in this notice, you may revoke that permission at any time by sending a written request to our Privacy Officer at the address listed at the end of this notice.

- a) **For Treatment.** We may use Health Information to treat you or provide you with health care services. We may disclose Health Information to doctors, nurses, technicians, or other personnel, including people outside our facilities or clinics who may be involved in your medical care.
